

Material Safety Data Sheet Ethyl Thiocyanate, 99% (GC)

MSDS# 76469

	Section 1 - Chemical Product and Company Identification		
MSDS Name:	Ethyl Thiocyanate, 99% (GC)		
Catalog Numbers:	AC410440000, AC410440250, AC410441000		
Synonyms:	Ethyl Rhodanate; Ethyl Sulfocyanate.		
Company Identification:		Acros Organics BVBA Janssen Pharmaceuticalaan 3a 2440 Geel, Belgium	
Company Identification: (USA)		Acros Organics One Reagent Lane Fair Lawn, NJ 07410	
For information in the US, call:		800-ACROS-01	
For information in Europe, call:		+32 14 57 52 11	
Emergency Number, Europe:		+32 14 57 52 99	
Emergency Number US:		201-796-7100	
CHEMTREC Phone Number, U	JS:	800-424-9300	
CHEMTREC Phone Number, E	urope:	703-527-3887	

Section 2 - Composition, Information on Ingredients

CAS#:	542-90-5
Chemical Name:	Ethyl Thiocyanate
%:	99
EINECS#:	208-833-3

Hazard Symbols:

Risk Phrases:

Section 3 - Hazards Identification

EMERGENCY OVERVIEW

Warning! Flammable liquid and vapor. Moisture sensitive. May cause central nervous system depression. Stench. May cause eye, skin, and respiratory tract irritation. Target Organs: Central nervous system.

Potential Health Effects

- Eye: May cause eye irritation. Lachrymator (substance which increases the flow of tears). May cause chemical conjunctivitis and corneal damage.
- Skin: May cause irritation and dermatitis. May cause cyanosis of the extremities.
- Ingestion: May cause gastrointestinal irritation with nausea, vomiting and diarrhea. The toxicological properties of this substance have not been fully investigated. Ingestion of large amounts may cause CNS depression.
- Inhalation: The toxicological properties of this substance have not been fully investigated. Aspiration may lead to pulmonary edema. Vapors may cause dizziness or suffocation. May cause burning sensation in the chest.

Chronic: No information found.

Figure					
Skill. elothing and shoes. Wash clothing before reuse. Ingestion: Get medical aid. Do NOT induce vomiting. If conscious and alert, rinse mouth and drink 2-4 cupfuls of milk or water. Inhalation: Remove from exposure and move to fresh air immediately. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical aid. Notes to Physician: Section 5 - Fire Fighting Measures As in any fire, wear a self-contained breathing apparatus in pressure-demand, MSHA/NIOSH (approved or equivalent), and full protective gear. Vapors may form an explosive mixture with air. Vapors can travel to a source of ignition and flash back. During a fire, irritating and highly toxic gases may be generated by themal decouple on the heat of a fire. Flammable liquid and vapor. Vapors may be heavier than air. They can spread along the ground and collect in low or confined areas. Extinguishing For small fires, use dry chemical, carbon dioxide, water spray to cool fire-exposed containers. Water may be ineffective. Do NOT get water inside containers. Do NOT use straight streams of water. Autoignition Not available Limits: Lower Not available Limits: Lower <td>EVES 7 1 7</td>	EVES 7 1 7				
Ingeston: Inhalation: Inhalation: Remove from exposure and move to fresh air immediately. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical aid. Notes to Physician: Section 5 - Fire Fighting Measures As in any fire, wear a self-contained breathing apparatus in pressure-demand, MSHA/NIOSH (approved or equivalent), and full protective gear. Vapors may form an explosive mixture with air. Vapors can travel to a source of ignition and flash back. During a fire, irritating and highly toxic gases may be generated by thermal decomposition or combustion. Will burn if involved in a fire. Use water spray to keep fire-exposed containers cool. Containers may explode in the heat of a fire. Ise water spray to keep fire-exposed containers cool. Containers may explode in the heat of a fire. Ise water spray to keep fire-exposed containers cool. Containers may explode in the heat of a fire. Ise water spray to keep fire-exposed containers cool. Containers may explode in the heat of a fire. Ise water spray to keep fire-exposed containers cool. Containers may explode in the heat of a fire. Ise water spray to keep fire-exposed containers cool. Containers may explode in the water spray or alcohol-resistant foam. For large fires, use water spray, fog, or alcohol-resistant foam. Use water spray to cool fire-exposed containers. Water may be ineffective. Do NOT get water inside containers. Do NOT use straight streams of water. Autoignition Temperature: Not available Limits: Lower: Not available Limits: Lower: Not available Section 6 - Accidental Release Measures General Information: Use proper personal protective equipment as indicated in Section 8. Absorb spill with inert material (e.g. verniculite, sand or earth), then place in suitable container. Avoid runoff into storm severs and ditches which lead to waterways. Clean up spills immediately, observing precautions in the Protective Equipment section. Remove all sources of ignition. Use a spark-proof bools					
Initiation. breathing is difficult, give oxygen. Get medical aid. Notes to Physician: Section 5 - Fire Fighting Measures As in any fire, wear a self-contained breathing apparatus in pressure-demand, MSHA/NIOSH (approved or equivalent), and full protective gear. Vapors may form an explosive mixture within air. Vapors can travel to a source of ginition and flash back. During a fire, irritating and highly toxic gases may be generated by thermal decomposition or combustion. Will burn if involved in a fire. Use water spray to keep fire-exposed containers cool. Containers may explode in the heat of a fire. Flammable liquid and vapor. Vapors may be heavier than air. They can spread along the ground and collect in low or confined areas. Extinguishing Media: For small fires, use dry chemical, carbon dioxide, water spray or alcohol-resistant foam. For large fires, use water spray, fog, or alcohol-resistant foam. Use water spray to cool fire-exposed containers. Water may be ineffective. Do NOT get water inside containers. Do NOT use straight streams of water. Autoignition Temperature: Not available Explosion Temperature: Not available Explosion Information: Not available Information: Use proper personal protective equipment as indicated in Section 8. Absorb spill with inert material (e.g. vermiculite, sand or earth), then place in suitable container. Avoid runoff into storm severs and diches which lead to waterways. Clean up spills immediately, observing precautions in the Protective Equipment section. Remove all sources of ignition. Use a spark-proof locol. Provide veutilation. Groune and pow containeres dentrial. Use sp	ingestion

Ethyl Thiocyanate	none listed	 none listed +	none listed ++

OSHA Vacated PELs: Ethyl Thiocyanate: None listed

Engineering Controls:

Facilities storing or utilizing this material should be equipped with an eyewash facility and a safety shower. Use

adequate general or local explosion-proof ventilation to keep airborne levels to acceptable levels. Exposure Limits

Personal Protective Equipment

Eyes: Wear appropriate protective eyeglasses or chemical safety goggles as described by OSHA's eye and face protection regulations in 29 CFR 1910.133 or European Standard EN166.

Skin: Wear appropriate protective gloves to prevent skin exposure.

Clothing: Wear appropriate protective clothing to prevent skin exposure.

Respirators: A respiratory protection program that meets OSHA's 29 CFR 1910.134 and ANSI Z88.2 requirements or European Standard EN 149 must be followed whenever workplace conditions warrant respirator use.

Section 15 - Regulatory Information

European/International Regulations

European Labeling in Accordance with EC Directives

Hazard Symbols: XN

Risk Phrases:

R 10 Flammable.

R 20/21/22 Harmful by inhalation, in contact with skin and if swallowed.

Safety Phrases:

S 9 Keep container in a well-ventilated place.

S 16 Keep away from sources of ignition - No smoking.

S 24/25 Avoid contact with skin and eyes.

S 28A After contact with skin, wash immediately with plenty of water.

S 33 Take precautionary measures against static discharges.

S 37 Wear suitable gloves.

S 45 In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible).
