HAZARD WARNIN			K PHRASES		PROTECTIVE CLOTHING
×		npound, minimiz skin, eyes, and tl		system.	
Section I. (Chemical Prod	luct and Co	mpany Ide	entification	
Chemical Name	Isopren	aline Hyd	drochlo	ride	
Catalog Number	10260	10260		Supplier	TCI America 9211 N. Harborgate St.
Synonym	Isoproterenol H	Isoproterenol Hydrochloride			Portland OR 1-800-423-8616
Chemical Formula	(HO) ₂ C ₆ H ₃ CH(C	OH)CH₂NHCH(CH	I ₃) ₂ •HCl		
CAS Number	51-30-9			In case of Emergency Call	Chemtrec® (800) 424-9300 (U.S.) (703) 527-3887 (Internationa
Section II.	Composition a	and Informa	tion on In	aredients	
Chemical	-	CAS Number	Percent (%)	TLV/PEL	Toxicology Data
Isoprenaline H	ydrochloride	51-30-9	Min. 99.0 (T)	Not available.	Rat LD_{50} (oral) 2221mg/kg Rat LD_{50} (intraperitoneal) 128mg/kg Mouse LD_{50} (oral) 1260mg/kg
Section III.	Hazards Ident	ification	1	I	
Acute Health Effects	Harmful if ingested or inhaled. Minimize exposure to this material. Severe overexposure can result in injury or death. Irritating to eyes and skin on contact. Inhalation causes irritation of the lungs and respiratory system. Inflammation of the eye is characterized by redness, watering, and itching. Skin inflammation is characterized by itching, scaling, reddening or, occasionally, blistering. Follow safe industrial hygiene practices and always wear proper protective equipment whe handling this compound.				
Chronic Health Effects	MUTAGENIC EF TERATOGENIC I DEVELOPMENT. Maternal effects- rat (subcutaneous Efects on embryo	Uterus, cervix and v s) 2500ug/kg. Durati or fetus- Fetotoxicit ure to an highly toxic	ble. lable. ductive: rat (sub agina. on: female 6-15 o y.	days of pregancy.	on: female 6-15 days of pregnancy. n of health by an accumulation in one or
Section IV.	First Aid Meas	ures			
Eye Contact	Check for and remove any contact lenses. IMMEDIATELY flush eyes with runing water for at least 15 minutes. keepin eyelids open. COLD water may be used. DO NOT use an eye oitment. Flush eyes with running water for a minimum of 15 minutes, occasionally lifting the upper eyelids. Seek medical attention. Treat symptomatically and supportively.				
Skin Contact	After contact with skin, wash immediately with plenty of water. Gently and thorough wash the contaminated skin with running water and non-abrasive soap. Be particularly careful to clean folds, crevices, creases and groin. COLD water may be used. Cover the irritated skin with an emollient. Seek medical attention. Treat symptomatically and supportively Wash any contaminated clothing before reusing.				
Inhalation	Evacuate the victim to a safe area as soon as possible. Loosen tight clothing such as a collar, tie, belt or waistband. breathing is difficult, administer oxygen. If the victim is not breathing, perform artificial respiration. WARNING: It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation when the inhaled material is toxic, infectiou or corrosive. Seek immediate medical attention and, if possible, show the chemical label. Treat symptomatically and supportively.				
Ingestion	INDUCE VOMITING by sticking finger in throat. Lower the head so that the vomit will not reenter the mouth and thro Loosen tight clothing such as a collar, tie, belt, or waistband. If the victim is not breathing, administer artificial respiration Examine the lips and mouth to ascertain whether the tissues are damaged, a possible indication that the toxic mater was ingested; the absence of such signs, however, is not conclusive. Seek immediate medical attention and, if possib show the chemical label. Treat symptomatically and supportively.

Section V.	Fire and Explosion Data				
Flammability	May be combustible at high temperature.	Auto-Ignition	Not available.		
Flash Points	Not available.	Flammable Limits	Not available.		
Combustion Products	These products are toxic carbon oxides (CO WARNING: Highly toxic HCl gas is produced		D ₂), halogenated compounds.		
Fire Hazards	No specific information is available regarding the flammability of this compound in the presence of various materials.				
Explosion Hazards	Risks of explosion of the product in presence of mechanical impact: Not available. Risks of explosion of the product in presence of static discharge: Not available. No additional information is available regarding the risks of explosion.				
Fire Fighting Media and Instructions	SMALL FIRE: Use DRY chemicals, CO ₂ , water spray or foam. LARGE FIRE: Use water spray, fog or foam. DO NOT use water jet.				
Section VI.	Accidental Release Measures	;			
Spill Cleanup Instructions	Harmful material. Irritating material. In case of a spill and/or a leak, always shut shovel to put the material into a convenient assistance on disposal.		ntilate the area, and exercise caution. Use onsult federal, state, and/or local authorities		
Section VII. I	Handling and Storage				
Handling and Storage Information	HARMFUL. IRRITANT. Handle with caution Mechanical exhaust required. When not in heat and light. DO NOT ingest. DO NOT be advice immediately and show the container Always store away from incompatible compo	use, tightly seal the container a preathe dust. Wear suitable pro or the label. Treat symptomatic	nd store in a dry, cool place. Avoid excessi otective clothing. If ingested, seek medical		
Section VIII.	Exposure Controls/Personal	Protection			
Engineering Controls	Use process enclosures, local exhaust ventilation, or other engineering controls to keep airborne levels below recommended exposure limits. If user operations generate dust, fume or mist, use ventilation to keep exposure to airborne contaminants below the exposure limit.				
Personal Protection	Protection Splash goggles. Lab coat. Dust respirator. Boots. Gloves. Be sure to use a MSHA/NIOSH approved re equivalent. Suggested protective clothing might not be sufficient; consult a specialist BEFORE handling this				
Exposure Limits	Not available.

Section XI.	Toxicological Information
RTECS Number	DO1925000
Routes of Exposure	Eye contact. Ingestion. Inhalation. Skin contact.
Toxicity Data	Rat LD_{50} (oral) 2221mg/kg Rat LD_{50} (intraperitoneal) 128mg/kg Mouse LD_{50} (oral) 1260mg/kg
Chronic Toxic Effects	CARCINOGENIC EFFECTS : Not available. MUTAGENIC EFFECTS : Not available. TERATOGENIC EFFECTS : Not available. DEVELOPMENTAL TOXICITYReproductive: rat (subcutaneous) 5mg/kg. Duration: female 6-15 days of pregnancy. Maternal effects- Uterus, cervix and vagina. rat (subcutaneous) 2500ug/kg. Duration: female 6-15 days of pregancy. Efects on embryo or fetus- Fetotoxicity. Repeated exposure to an highly toxic material may produce general deterioration of health by an accumulation in one or many human organs.
Acute Toxic Effects	Harmful if ingested or inhaled. Minimize exposure to this material. Severe overexposure can result in injury or death. Irritating to eyes and skin on contact. Inhalation causes irritation of the lungs and respiratory system. Inflammation of the eye is characterized by redness, watering, and itching. Skin inflammation is characterized by itching, scaling, reddening or, occasionally, blistering. Follow safe industrial hygiene practices and always wear proper protective equipment wher handling this compound.
Section XII.	Ecological Information
Ecotoxicity	Not available.
Environmental Fate	Not available.
Section XIII.	Disposal Considerations
Waste Disposal	Recycle to process, if possible. Consult your local or regional authorities. You may be able to dissolve or mix material wit a combustible solvent and burn in a chemical incinerator equipped with an afterburner and scrubber system. Observe a federal, state, and local regulations when disposing of the substance.
Section XIV.	Transport Information
DOT Classification	Not a DOT controlled material (United States).
PIN Number	Not applicable.
Proper Shipping Name	e Not applicable.
Packing Group (PG)	Not applicable.

Section XV. Ot	her Regulatory Information and Pictograms
TSCA Chemical Inventory (EPA)	 This product is NOT on the EPA Toxic Substances Control Act (TSCA) inventory. The following notices are required by 40 CFR 720.36 (C) for those products not on the inventory list: (i) These products are supplied solely for use in research and development by or under the supervision of a technically qualified individual as defined in 40 CFR 720.0 et sec. (ii) The health risks of these products have not been fully determined. Any information that is or becomes available will be supplied on an MSDS sheet.
WHMIS Classification (Canada)	Not available.
EINECS Number (EEC)	200-089-8
EEC Risk Statements	R20/21/22- Harmful by inhalation, in contact with skin and if swallowed. R36/37/38- Irritating to eyes, respiratory system and skin.
Japanese Regulatory Data	Not available.

Section XVI. Other Information

Version 1.0 Validated on 4/6/1999. Printed 2/22/2005.

Notice to Reader

TCI laboratory chemicals are for research purposes only and are NOT intended for use as drugs, food additives, households, or pesticides. The information herein is believed to be correct, but does not claim to be all inclusive and should be used only as a guide. Neither the above name supplier nor any of its subsidiaries assumes any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All chemical reagents must be handled with the recognition that their chemical, physiological, toxicological, and hazardous properties have not been fully investigated or determined. All chemical reagents should be handled only by individuals who are familiar with their potential hazards and who have been fully trained in proper safety, laboratory, and chemical handling procedures. Although certain hazards are described herein, we can not guarantee that these are the only hazards which exist. Our MSDS sheets are based only on data available at the time of shipping and are subject to change without notice as new information is obtained. Avoid long storage periods since the product is subject to degradation with age and may become more dangerous or hazardous. It is the responsibility of the user to request updated MSDS sheets for products that are stored for extended periods. Disposal of unused product must be undertaken by qualified personnel who are knowledgeable in all applicable regulations and follow all pertinent safety precautions including the use of appropriate protective equipment (e.g. protective goggles, protective clothing, breathing equipment, facial mask, fume hood). For proper handling and disposal, always comply with federal, state, and local regulations.
